Gansheng Tan, Ph.D. Student

Washington University School of Medicine,
520 S Euclid Ave, St. Louis, MO, 63110
Phone: +1 (314) 745-9303, Email: gan.t@wustl.edu

Research Interest

I am a **self-motivated** and **team-minded Ph.D.** student with **5 years** of experience in **neuromodulation** research and bioelectrical signal processing. I seek to understand neural plasticity through electrophysiology, interact with these signals using an interdisciplinary approach, and thereby develop new effective treatments for nervous system-related diseases.

Education

09/2019 – present, MO, USA. **Ph.D. Biomedical Engineering**
Washington University in St. Louis

09/2019 – 03/2022, Shanghai, China **M.Eng. Mechanical Engineering**
Shanghai Jiao Tong University

06/2017 – 09/2019, Île-de-France, France **Diplôme d'ingénieur (postgraduate degree in engineering)**
CentraleSupélec
Topics: Advanced Statistics, Machine Learning, Signal Processing

09/2015 – 06/2019, Shanghai, China **B.Eng.**
Shanghai Jiao Tong University

Research and Professional Appointments

09/2021 - present, St. Louis, MO, USA **Research Scholar**
Department of Neurosurgery, Washington University School of Medicine
Studying the neurophysiological effects of transcutaneous auricular vagus nerve stimulation; investigating the interaction between cortical oscillation and muscle synergies

11/2019 – 03/2022, Shanghai, China **Graduate Research Assistant**
Department of Rehabilitation Medicine (Ruijin Hospital) - State Key Laboratory of Mechanical Systems and Vibration, Shanghai Jiao Tong University
Developed a framework based on Electroencephalography and Electromyography for individualizing Transcranial Magnetic Stimulation to promote recovery from stroke

05/2019 – 09/2019, Bron, France **Research Fellow**
Lyon Neuroscience Research Center, French National Institute of Health and Medical Research
Analyzed the cerebral oscillations underlying the meditative practices; developed semi-automatic EEG signal preprocessing pipeline for meditation research

01/2018 – 03/2021, Île-de-France, France **Graduate Research Assistant**
Signals and Systems Laboratory, French National Centre for Scientific Research
Identified neural correlates of Focused Attention meditation and problem-solving state; developed a platform guiding meditators based on mental state classification

10/2015 – 05/2017, Shanghai, China **Undergraduate Research Assistant**
State Key Laboratory of Mechanical Systems, Shanghai Jiao Tong University

Skills

Software Engineering (Python, R, MATLAB, Github, Java, C/C++, HTML, CSS, 8 years)

Statistical Learning and Biomedical Data Analysis (5 years)
Clinical and Translational Research (3 years)
Scientific Writing and Illustration (Adobe Illustrator, MS Office, Latex, 5 years)

Awards

2021	2021 China National Scholarship (top 0.5%)
2020	Changjiang Siyuan Scholarship, Shanghai Jiao Tong University, China
2018	Top 10 in Huawei Big Data Challenge in France
2018	Innovative Project Award, CS² Congrès Scientifique du Campus de Saclay, France
2017	Écoles Centrales Group – Chinese Universities Double Degree Scholarship, China
2016	Honor Student, Shanghai Jiao Tong University, China
2015	Excellent Design, Engineering Design Showcase, Shanghai Jiao Tong University, China

Experience

10/2018 – 05/2019 Île-de-France, France	**Teaching Fellow** *Laboratory in Mathematics and Computer Science (MICS), CentraleSupélec* Instructor for Convergence, Integration, Probability and Partial Differential Equation
08/2018 – 05/2019 Île-de-France, France	**Vice President of International Student Union** *CentraleSupélec*
04/2018 - 05/2018 Cambridge, U.K.	**Exchange Student** *Department of Engineering, University of Cambridge*
10/2017 – 06/2018 Paris, France	**Project Manager** *Tech for Good Explorer & La Condamine*

Professional societies

Graduate Student Member of IEEE

Graduate Student Member of American Society of Neurorehabilitation
